Purifics' Receives Recognition as London's Featured Company

London, Ontario – Purifics is extremely pleased to have been a recipient of the prestigious London Featured Company award from the London Economic Development Corporation (LEDC) and the City of London.

Purifics Company President, Brian Butters was in attendance to receive a commemorative plaque from Mayor Anne Marie DeCicco at the London city council meeting on April 4, 2005.

“We (Purifics) are fortunate to be part of a community with a strong business environment that fosters the growth and development of companies such as Purifics” says Brian Butters, President of Purifics.

Purifics is a licensed engineering firm and knowledge based business with the purpose of developing leading edge technology to purify, separate and condition fluids such as air and water. These systems are used for the automated treatment of wastewater, groundwater and industrial process waters as well as contaminated air streams with VOC and SVOC's.

The London Economic Development Corporation (LEDC) is a partnership between the City of London and the private sector. Each month, LEDC highlights the history, products and services of London companies that contribute to the economic well-being of London.
